

Antoinette M. Tease, P.L.L.C.

1. Please provide your complete contact info (we would like to have two telephone numbers for you).

2. Please provide full name, home address and country of citizenship for each of the inventors. Anyone who contributed to something that is part of the invention *as claimed* must be named as an inventor.

3. If an entity will be owning the patent rights, please provide the full name, principal place of business address, and state of incorporation or organization of the entity.

4. Please state whether each inventor is an employee or an independent contractor of the entity listed in #3 above.

5. For each individual listed in #2 above, please state whether you have a written patent assignment agreement with that person. If so, please provide us with a copy of the agreement(s).

6. Please state whether the invention has been publicly disclosed either in a verbal presentation, a verbal conversation, or a written document or publication. If so, please provide the date of first public disclosure and a brief explanation of the nature of the disclosure.

7. Please state whether the recipient(s) of the information referred to in #6 above signed a confidentiality and nondisclosure agreement. If so, please provide copies of all such agreements.

8. Please state whether the invention has been offered for sale or sold. If so, please provide the date on which the invention was first offered for sale or sold.

9. In a separate document, please answer the following questions:

- a. What is the problem you were trying to solve? (1-3 paragraphs)
- b. How did you solve this problem? In other words, what is the answer you came up with? (This is an overview of the invention, typically 1-3 pages.)
- c. How does it work? Please describe all embodiments and all applications of the invention. Explain not only *what it does* but *how it does it*. (This section is typically anywhere from 3 to 150 pages, depending on the invention.)
- d. How or why is your invention better than prior art? In other words, why is your solution to this problem better than previous solutions? (Sometimes the answer is that there was no solution to this problem before your invention.) (1-3 pages)

10. For non-software inventions, please provide a physical or virtual (eDrawings) prototype. For software inventions, please provide a technical write-up that complies with the guidelines set forth at http://www.teaselaw.com/newsletter/2009_march.html.

11. Please provide the application number, filing date and jurisdiction (country) of any patent applications that have already been filed for this invention.
